Less Cotton Ginned.

Washington, Oct. 25.—The census
bureau today made public the result
of the reports of its special agents on
the quantity of cotton of this year's
crop which had been ginned up to the
15th instant, showing 4,089,338 bales,
as compared with 4,921,621 bales
ginned to the same time last year. In
these figures sixty-nine counties are
represented and the same counties last
year gave a total of 320,123 bales.

Arbuckles' is a tremendous organization that results in economy, and gives coffee drinkers in the United States the cheapest good coffee in the world.

We have our own offices in Brazil, charter our own vessels that bring the coffee to our own docks in Brooklyn, own our own stores where the green coffee matures and improves.

Arbuckles' Ariosa Coffee

is not touched by human hands—it is cleaned, sorted, roasted, packaged and weighed by ingenious machinery, mostly constructed by our own machinists in our own shops.

The package is for your protection, that you may be positive that you receive the genuine Arbuckles' Ariosa Coffee every time—no matter where you buy it or what price you pay. We will tell you where you can buy Arbuckles' Ariosa Coffee if you have trouble in finding it.

sible at each price, not thinking of the grade
above or the grade below it.That is why we say: No matter what price you
pay here you get the best quality possible at
that price.May We Not Have the Pleasure of
